

History of Painters Plus

Painters Plus was started in historic Northville Michigan by two young men Steve McFarland and Dwayne March. Both had worked their way through college painting historic houses and buildings. And after finishing school, they felt they could combine their newly learned business skills with their knowledge in the painting field. So in 1986 they became Painters Plus.

They had very little money and borrowed equipment, but they managed to convince a homeowner on a busy street to let them be their first customer. Many people seeing the expert work being done stopped to get their number. Offering professional work at affordable prices became their motto. Soon they had several jobs and they grew faster than they could have imagined. After two years they had become one of the largest painting companies in the entire Detroit area!

After a few years, Steve decided he no longer wanted to live in the Detroit area. Steve moved to California, where he picked up where he had left off in Detroit. After a few years, Painters Plus had once again become one of the largest painting companies in the area. First in Sacramento, then expanding to almost all of Northern California!

What We Do For YOU!

- ✓ Unlike most contractors, Painters Plus does not require a deposit to begin work.
- ✓ We are fully insured, licensed and bonded. Not only do we carry workers compensation insurance which is required by law, but we carry liability insurance as well. Most painters do not have this, because they are not required to do so. This means that YOU will become their insurance policy. If they were to have a costly accident - and they're not insured it could be your problem. Beware, and always ask for proof of insurance up front. Don't take chances with your property!
- ✓ Painters Plus is one of the few contractors that actually stays on schedule. Because we have supervised professionally trained crews, we know what we're doing and how long it will take. Your time is important and you don't need to be given the "run around" of not knowing when your job will be started and finished.

- ✓ We use only the best paint and materials. We never use lower grade products. We negotiate our prices with the manufacturer for only the best paint because we buy in large volume. We then pass those savings on in our bids. The competition will almost always pay more for the same products. And who do you think will pay for this?
- ✓ All of our crews are uniformed, professionally trained and polite. All crews are supervised and the supervisor is on the job at all times. We don't send a "rag-tag" group of guys that make you feel uncomfortable - like many of the other painters out their.
- ✓ Ranked #1 in the industry for more than ten years in a row!

"When you select a painting company with expertise like Painters Plus, you don't need to do anything but choose your colors and select a date. It's nice not to worry and even nicer to not have paint it ourselves! Thanks again Painters Plus!"

Mr. & Mrs. Ridderbusch
